**Airblaze technology** 

Moisture and temperature management system to provide optimum wearer comfort by keeping your feet dry and comfortable.

3FIT SYSTEM

Steel midsole Puncture resistant steel midsoles are made from stainless or coated steel and prevent sharp objects from penetating the outsole.

## TLS (Twist Lock System)

Safety Jogger's innovative TLS closure allows you to quickly tighten and loosen your safety footwear with one hand and under any conditions, even when you are wearing safety gloves. TLS ensures a fast, safe and easy precision fit that offers enhanced comfort and enables you to perform at your best.

#### SRC slip resistance

Steel toecap Robust metal support to protect the feet of the wearer against falling or rolling objects.

Electrostatic Discharge (ESD) ESD provides the controlled discharge of electrostatic energy that can damage electronic components and avoids risks of ignition resulting from electrostatic charges. Volume resistance between 100 KiloOhm and 100 MegaOhm.

Slip resistant soles are one of the most important features of safety and occupational footwear. SRC slip resistant soles pass both SRA and SRB slip resistant tests, they are tested on both steel and ceramic surfaces.
