

FLOW S3 LOW

FLOWS3LOW

Sporty, low-cut ESD safety shoe that is completely metal free

FLOW S3 is a contemporary, metal-free safety shoe designed for professionals in logistics and electronics. With a composite toe cap, anti-puncture midsole, ESD compliance, and an SR slipresistant outsole, it offers reliable protection while maintaining a stylish low-cut, water-resistant design for versatile use in wet and dry environments.

Norms

S3 S3 safety shoes are suitable for work in an environment with high

work in an environment with high humidity and presence of oil or hydrocarbons. These shoes also protect against perforation risk of the sole, and foot crushing.

Removable insole Renew your insole at a regular base or use your own orthopedic insoles for a higher comfort.

SRC slip resistance

SYSTEM

Slip resistant soles are one of the most important features of safety and occupational footwear. SRC slip resistant soles pass both SRA and SRB slip resistant tests, they are tested on both steel and ceramic surfaces.

Airblaze technology Moisture and temperature management system to provide optimum wearer comfort by keeping your feet dry and comfortable.

Electrostatic Discharge (ESD) ESD provides the controlled discharge of electrostatic energy that can damage electronic components and avoids risks of ignition resulting from electrostatic charges.

Volume resistance between 100 KiloOhm and 100 MegaOhm.

Composite toecap

Metalfree and lightweight, no thermal or electrical conductivity
