Sealing	Polyurethane
Size range	EU UNI
Sample weight	0.120 kg
Norms	BS EN 14683:2019

CE

285

Effective respiratory protection
Over 94% of filtration, less than 8% leakage.

Flexible nose bridge
Helps to seal the mask perfectly.

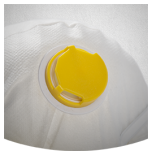

Contoured shape
Offers a perfect fit.

Elastic ear loops and head strap
For a secure fit behind the ears and head.

Breathable
Offers maximum breathability.

Exhalation valve
The additional valve supports easy exhalation and reduces fatigue during long work sessions.
